Designer Flooring Range

Easy-to-install, versatile range of high-quality flooring designed to enhance any space with durability and style.

15 year residential guarantee.

Designed to install over existing surfaces.

Suitable for underfloor heating.

Slip resistant.

Rapid installation — no glue or adhesives necessary.

Integrated underlay.

Why choose Clever Click Rigid?

Clever Click Rigid is a stone polymer composite (SPC) flooring solution designed for the demands of real homes. Celuplast SPC stands out for its **durability and ease of installation**. This combination of strength and convenience makes it a practical choice for any room in your home.

Our Clever Click Rigid flooring consists of five layers, which provides strength, durability, comfort and softens acoustics.

1 Protective PU Coating

This is the topcoat which adds protection against water, scratches and stains. With its matt finish it also makes it easy to clean.

2 Wear Layer

A protective barrier that provides durability.

3 PVC Décor Film

The design layer that gives your floor its stylish wood or stone look, available in a variety of patterns.

4 Rigid Core

Provides strength and stability.

5 IXPE Integrated Underlay

Eliminates the need for a separate underlay, making it easy to install and improves the acoustics in your home.

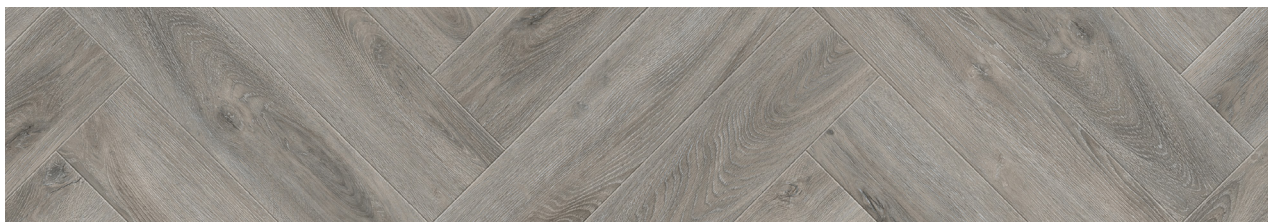

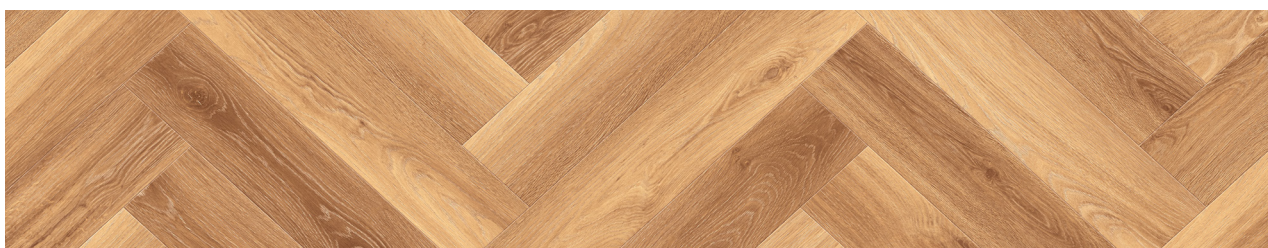

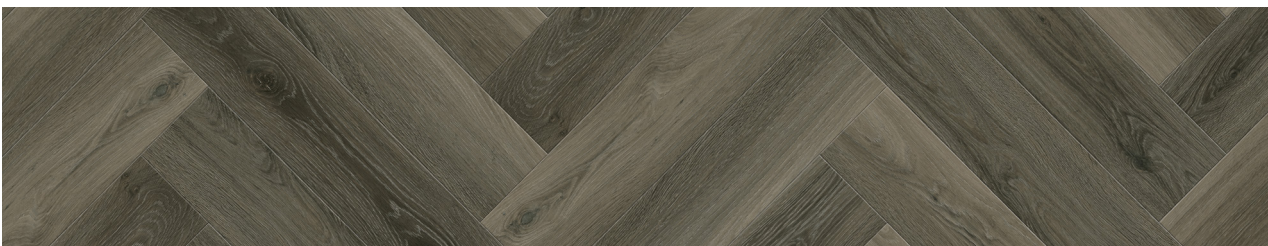

Herringbone

Our herringbone flooring features **Unizip Technology** which **eliminates the need for separate left and right planks**, making it quick and easy to achieve the classic herringbone look.

Perfect for adding **character** and **sophistication** to any room with minimal hassle.

Wichita Beech

**Concord Ash****Wichita Beech****Lexington Oak**

Suitable for underfloor heating.

15 year residential guarantee.

Integrated underlay.

Designed to install over existing surfaces.

Rapid installation: No glue or adhesives necessary.

Shrink-resistant: Prevents gaps caused by temperature shifts.

125 x 625 x 5.5 mm

Durable, waterproof and easy-to-maintain.

Rapid installation: No glue or adhesives necessary.

Shrink-resistant: Prevents gaps caused by temperature shifts.

Floor Accessories

Clever Click Flooring Profiles are designed to handle height variations and create smooth transitions between flooring types. Our profiles create the perfect finish for your flooring projects.

End Profile | Silver

Provides a neat finish to the edge of a floor **where it ends** against a wall, a sliding door or another surface that doesn't require a transition to another floor level.

T Profile | Silver

A flooring transition profile used to **bridge two floors** of equal height. It sits between the two floor edges and covers the expansion gap, and can be used in door frames to break up rooms.

Adapter Profile | Silver

Designed to bridge the height difference between **two uneven floor surfaces**, where a higher SPC floor meets a lower floor like vinyl, tile or concrete.

2m

Concord Ash (p. 5)

Wall and Ceiling Panels

Easy-to-install, versatile range of high-quality wall and ceiling panels designed to enhance any space with durability and style.

Rapid installation

Designed to install over existing surfaces.

Easy to clean

Waterproof and resists mould.*

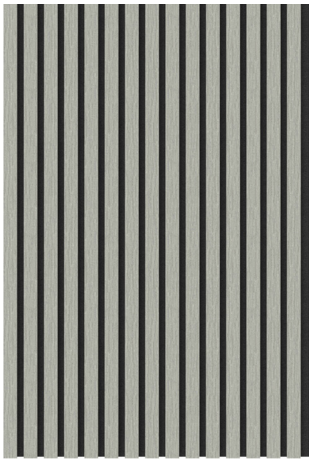

*Waterproof and mould resistance doesn't apply to acoustic range.

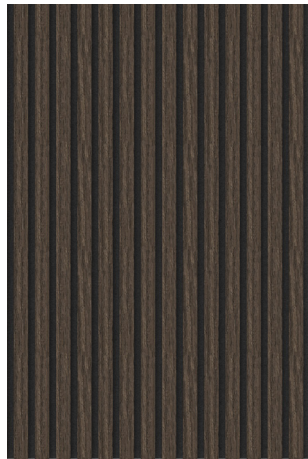

Acoustic Wall Panels

Our Acoustic Wall Panel range offers both form and function – striking, modern interior aesthetics combined with **acoustic performance**.

These decorative panels feature **visual depth** that not only looks amazing, but also provides real **soundproofing** benefits; absorbing excess noise and echo in your home.

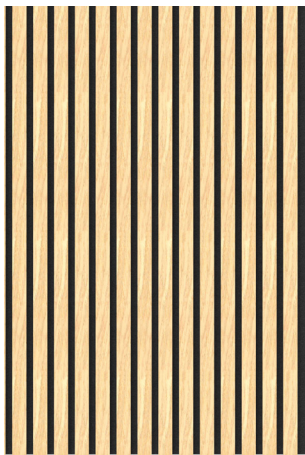

Light Grey

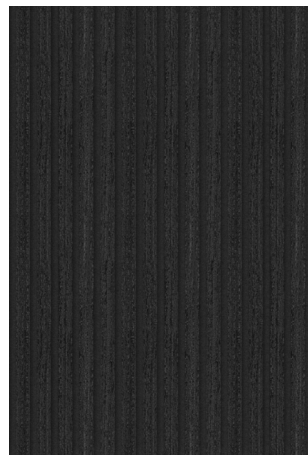

Walnut

Maple

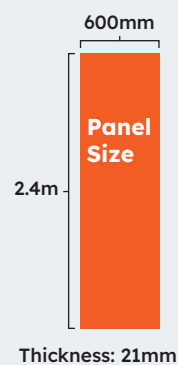

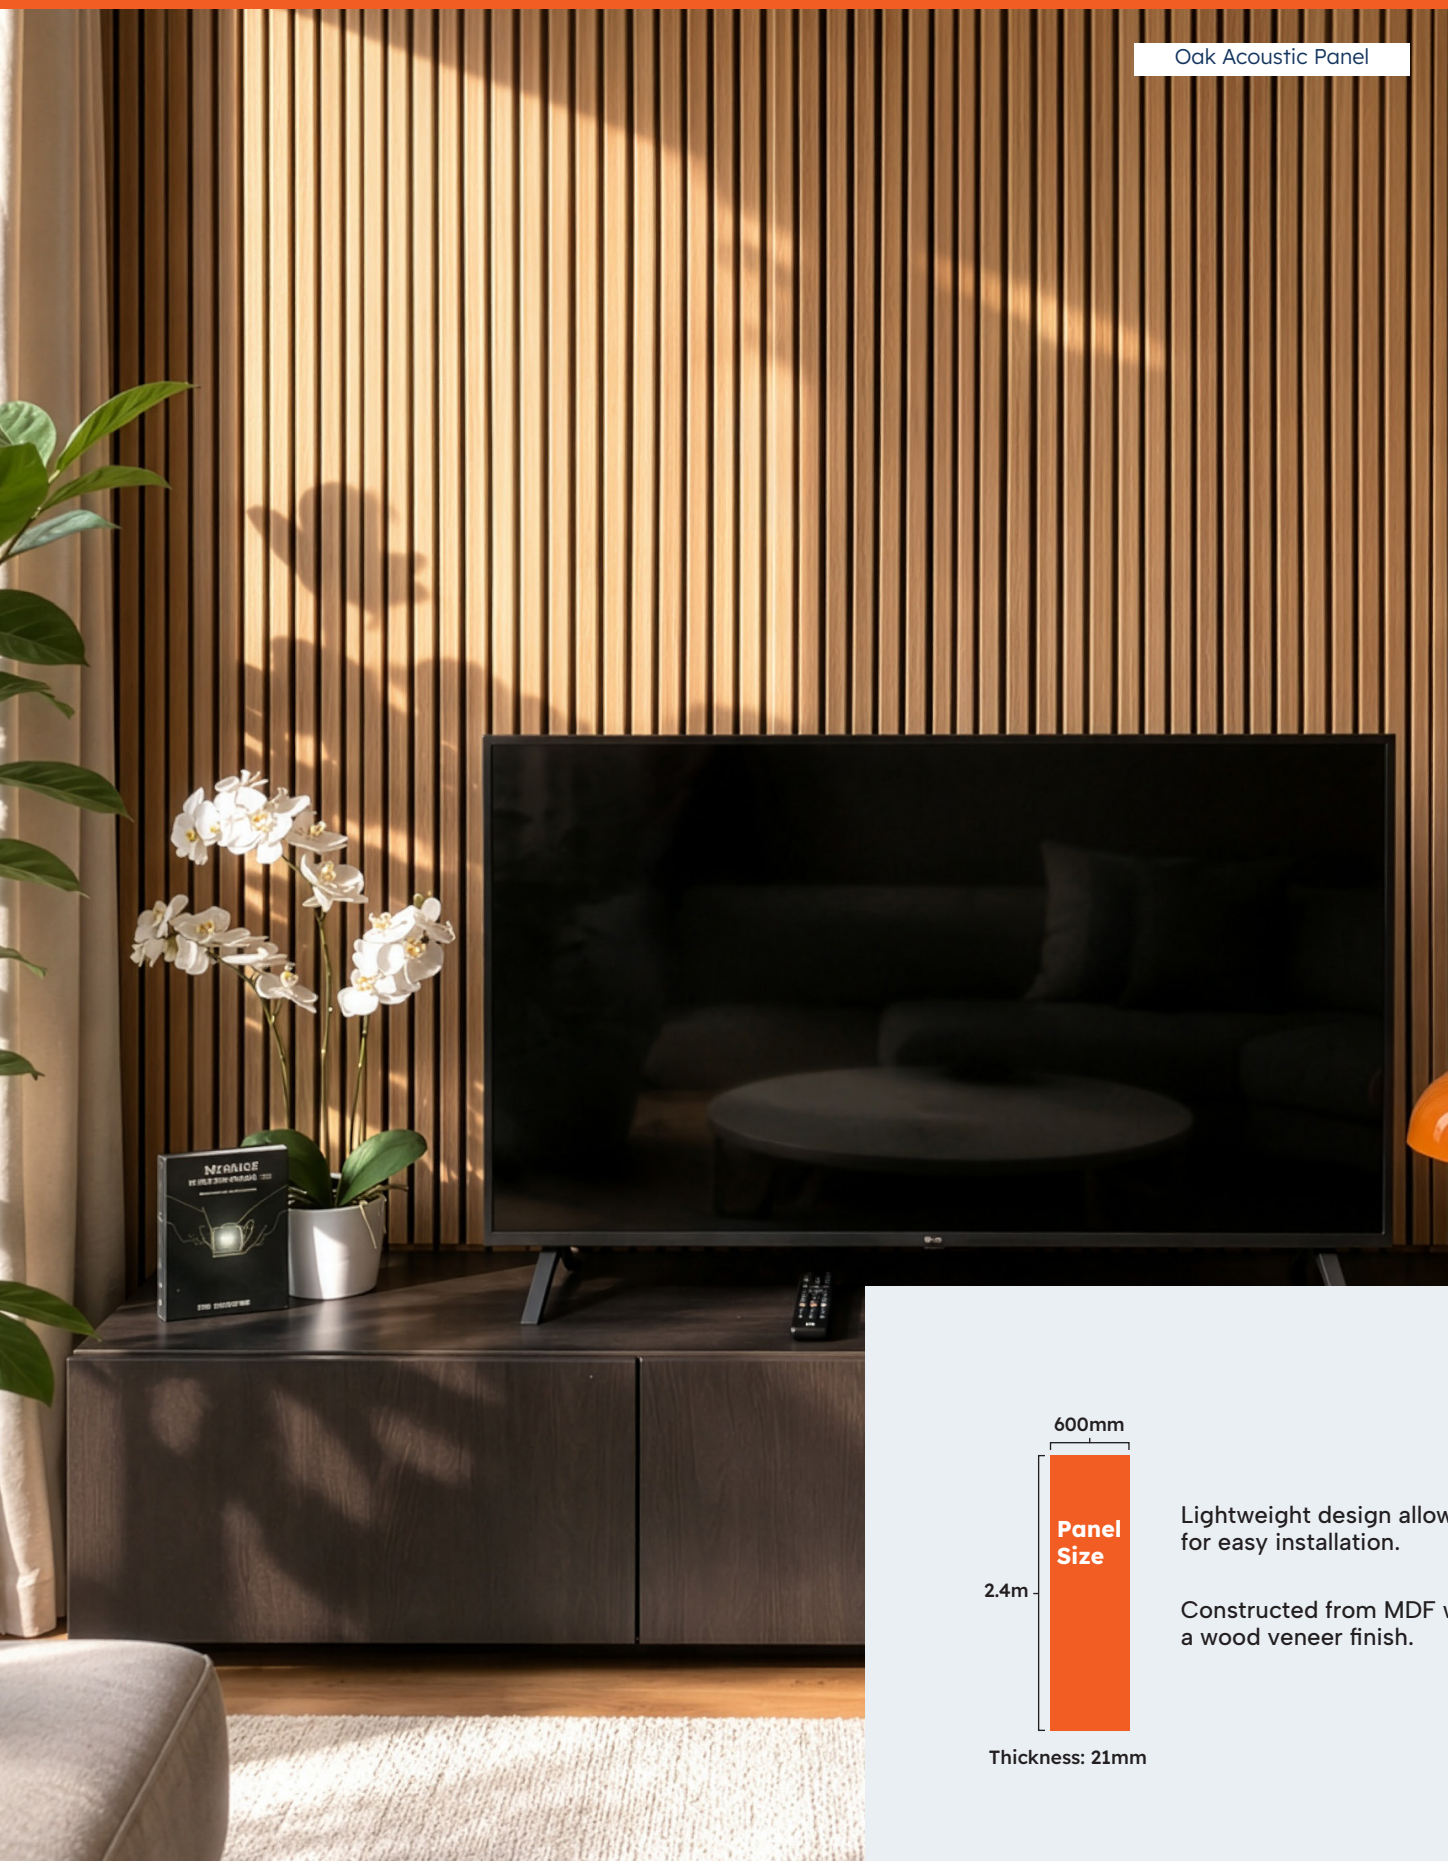

Oak

Ebony

Oak Acoustic Panel

Lightweight design allows for easy installation.

Constructed from MDF with a wood veneer finish.

SPC Wall Panels

Highly durable, thanks to their composite structure, which ensures **resistance to wear, impact, and moisture** while being **easy to install**, and **low-maintenance**.

Polished Concrete
